## F2T55E-

**Wireless 2-way pushbutton in E-Design55, 80x80 mm external dimensions, internal frame dimensions 55x55 mm, 15 mm high. Generates the power for wireless telegrams itself when the button is pressed, therefore there is no connecting wire and no standby loss.**

Wireless pushbuttons with one rocker can transmit two evaluable signals: press rocker up and press rocker down.

The mounting plate can be screwed over a flush-mounting box with a screw spacing of 60 mm or screwed on a flange at surface. The wireless pushbutton can be glued to the wall, on glass or on furniture using the enclosed adhesive foil.
