Wireless 4-way pushbutton in E-Design55, 80x80 mm external dimensions, internal frame dimensions 55x55 mm, 15 mm high. Generates the power for wireless telegrams itself when the button is pressed, therefore there is no connecting wire and no standby loss.

Wireless pushbuttons with double rocker can transmit four evaluable signals: press two rockers up or down.

The mounting plate can be screwed over a flush-mounting box with a screw spacing of 60 mm or screwed on a flush surface. The wireless pushbutton can be glued to the wall, on glass or on furniture using the enclosed adhesive foil.
